Features	Benefits
Push To Talk	
Quick, easy calling	The "press to talk, let go to listen" nature of Push To Talk calls on the BlackBerry Curve 8350i smartphone encourages simple, direct conversations so workers can have more time to focus on the task at hand.[1, 2]
Phone	
Feature-rich phone	Voice dialing, smart dialing, conference calling, built-in speakerphone, enhanced background noise cancellation, voice mail attachment playback, click-to-call integrated dialing and more. The tools that make calls – and life – easier. Have the features of a professional desktop phone with you when you're between appointments or running late.[4]
E-mail + Messaging	
Set-up wizard for easy e-mail setup	Get started quickly and easily. There's no complicated set-up process to get your BlackBerry Curve 8350i smartphone running. You're just a few clicks away from the freedom of BlackBerry push e-mail.
View attachments	Open popular document and graphic attachments on the spot and view them with LCD-quality color and clarity.[4] That includes JPEG, Adobe® PDF, Microsoft® Word, Microsoft® Excel® and Microsoft® PowerPoint® files.
Improved e-mail layout (rich HTML e-mail)	From tables and images to font formatting and one-click hyperlinks, now e-mail on BlackBerry smartphones looks better than ever.
Edit Microsoft Word, Microsoft Excel and PowerPoint Files	Whether you're on the go or just away from your computer, now you can take advantage of the flexibility of working on Microsoft Word or Microsoft Excel and PowerPoint files from just about anywhere.[5]
Text and picture messages (SMS and MMS)	Text and picture messaging can increase your communication flexibility – whether it's exchanges with customers, suppliers or even internal contacts.[6,7]
Camera and Video Recording	
2.0 MP camera, flash, digital zoom	With the BlackBerry Curve 8350i smartphone, you've got a quality digital camera right by your side. Take a shot then share it with colleagues using e-mail or picture messaging (MMS). Or, if a still image won't capture the scene, record video clips of events or worksites and share them.[6, 7, 8]
Global Positioning System (GPS)	
Built-in GPS capabilities	Don't second-guess a destination. Use the GPS capabilities with BlackBerry Maps or other third-party mapping applications to deliver text-based, turn-by-turn directions and route maps to specific destinations and service locations.[6, 9, 10]
BlackBerry Maps	
BlackBerry Maps	BlackBerry® Maps can help save you time and cut stress with road maps and text-based, turn-by-turn directions.[9, 10]
Wi-Fi	
Access your BlackBerry data services over Wi-Fi networks	Use a Wi-Fi network to check your e-mail or review information online.[12] Wireless home networks and public hotspots can give you access to your BlackBerry services.
Data Storage and Transfer	
Expandable memory capability	The BlackBerry Curve 8350i smartphone accepts microSD cards of various sizes so you can carry the files you need at all times.[12]
Move and share files	Using wireless technology files can be moved between the BlackBerry Curve 8350i smartphone and Bluetooth-enabled desktop computers without ever connecting a wire. Or, connect the device to a computer and transfer files at full speed using USB cable (provided).
Organizer	
Integrated address book, calendar, memo pad and task list	E-mail, message and place phone calls – PTT and cellular – directly from one centralized address book.
Desktop Personal Information Management (PIM) synchronization via USB	Stay up to date without entering information twice. Just connect your BlackBerry smartphone to your desktop computer to synchronize your calendar, address book, tasks, memos and more.[13]
Browser	
HTML browsing	Enjoy the convenience of mobile access to a wide range of online information, which can help increase productivity and reduce the need for follow-up meetings or visits.[6, 14]
Integrated search	Initiate an Internet search right from the first browser screen for direct access to Web-based information, and save time and effort.[15]
Fun Stuff	
Carrying cases, batteries, charging solutions, wallpapers, ring tones, add-on applications	Use BlackBerry® Authentic Accessories to match your BlackBerry Curve 8350i smartphone to your lifestyle.[15] For more information visit www.blackberry.com
BlackBerry® Services	
BlackBerry service	Right from the box the BlackBerry Curve 8350i smartphone is ready to impress. With activation, you've got the freedom to browse the Internet, make a call or send e-mail from just about anywhere[1, 4, 6] supported by IT departments. IT policies can enable or disable the camera and expandable memory capability for specific users and at specific times.
Business ready	The BlackBerry Curve 8350i smartphone is ideal for businesses of all sizes. For small to medium-sized businesses, BlackBerry® Internet Service, Hosted BlackBerry® Enterprise Server and BlackBerry® Professional Software are designed to offer affordable, easy-to-set up solution options.
	For large organizations, BlackBerry Enterprise Solution is designed to provide advanced security features, hands-on control and enterprise-grade functionality, such as single mailbox integration, wireless e-mail reconciliation, wireless calendar synchronization, remote address book lookup and more.[17] Plus, unlike traditional mobile phones, the BlackBerry Curve 8350i smartphone can be centrally managed and supported by IT departments. IT policies can enable or disable the camera and expandable memory capability for specific users and at specific times.[3]
